Multifunction

Business **Can** be simple

UNLEASH POWER,
SPEED, FLEXIBILITY
AND CONNECTIVITY IN
YOUR OFFICE.

**The Multi-Talented Productivity Centre that
Connects Your Office and the World.**

This simply smart Canon imageRUNNER 3025/3035/3045 series creates a borderless environment of people, devices, images and information that lets you live and work the way you want anytime and anywhere.

This intelligent and powerful multi-tasker is always ready to meet on-demand needs for digital copying, scanning, file sharing, faxing, storing files, printing and office cost management.

In addition, the Canon imageRUNNER 3025/3035/3045 series has embedded diverse and customizable applications for corporate workgroup and departmental workflow requirements, makes seamless workgroup collaboration a reality.

TECHNOLOGY

Be Efficient and Ready for Tomorrow

As the business grows, imageRUNNER 3025/3035/3045 series will continue to provide value with features and functions designed to extend your capabilities. Enhance your work process for maximum efficiency today!

■ Work Efficiency & Productivity

Canon's **iR Controller** elevates overall multifunction capabilities by synchronizing scanner, image processor and engine operation. Thus realizing higher speed and efficient operation through concurrent processing. It improves work efficiency by allowing you to return to work immediately after scanning to the memory.

■ New Shorter Paper Path

This improved shorter and straighter paper path design minimizes the potential for paper feeding jams and at each location thus minimizing occurrence of paper feed jams and ease of maintenance.

■ Large Full-Colour User Interface Promotes User-friendliness

The imageRUNNER 3025/3035/3045 series further promotes its operating efficiency through its full-Color touch-sensitive LCD User Interface, which provides quick and intuitive programming of its versatile functions.

■ Connect with the Future

The imageRUNNER 3025/3035/3045 series incorporates Canon's **MEAP™** (Multifunctional Embedded Application Platform). This is an in-built Java-based platform that gives you many more potential uses of your intelligent imageRUNNER by customizing specific applications.

■ Energy Saving & Eco-friendly with Green Technology

Besides being Energy saver and consuming less power, Canon has successfully developed a unique roller-charging system, which effectively absorbs and disperses the ozone through a filter delivering an ozone-free operation so it does not pose a threat to human health. Rest assured that with Canon products, your business and well-being are taken care of.

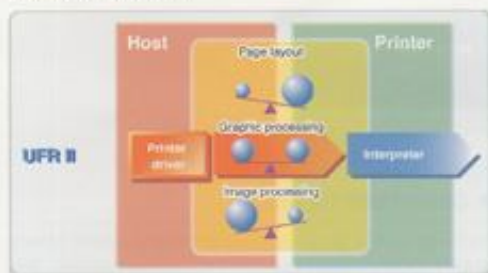

Winning Print Capabilities

Cutting edge image processing technology with uncompromising business performance.

■ Optimal Performance with Advanced Printing Technology

The imageRUNNER 3025/3035/3045 series can RIP while printing; maximize processing speed from your PC and minimize file processing time, thus achieving maximum performance in your workflow through Canon's unique **Ultra Fast Rendering II (UFR II)** print language.

Load Balancing Concept

If your company requires traditional printing capabilities, **PCL printer kit** and **PS printer kit** provide you the answer—allowing imageRUNNER 3025/3035/3045 series to work on a variety of software applications.

■ High Image Quality

Whichever print controller you choose, high quality print is ensured by Canon proprietary print drivers, delivering crisp and sharp text documents at 1200dpi x 600dpi-enhanced resolution and exceptional printing performance.

■ Bring Documents Together from Different Sources

Ever have problems creating complex documents? With **Canon's Page Composer** you can merge the component parts of a document from different Windows applications (such as Microsoft Word™, Excel™, PowerPoint™, PDF™ etc) into a single electronic document from the comfort of your desktop.

■ Encrypted Secured Print

Documents are encrypted before sending over the network, decrypted and will print only after the correct password is entered on the device. This prevents unauthorized people from access and reproduction without authorization.

PRINT

■ Booklet Creation

Simply create professional quality paginated booklets, multi-paged pamphlets, catalogues and newsletters with sophisticated finishing features in-house, eliminating the need for outsourcing and manually paginating each page.

■ Web Browsing & Printing

Web Access Printing represents the next step in the evolution of document printing. Browsing Web or corporate intranets can be easily accessed from the device's touch panel. The optional Web Access function allows you to print Web pages or PDF files without having the need to access to a computer.

■ Lowers Office Costs

The multi-functional device allows you to print 2-on-1, 4-on-1, 6-on-1, etc on a single sheet of paper. This feature effectively reduces paper consumption, filing space, fax transmission expenses and caring for the environment at the same time.

■ Ease of Managing Assets

The new barcode-printing feature enables automated and error-free barcode printing. It allows you to print machine-readable barcodes on documents hence managing assets, controlling distribution and tracking documents with ease.

*Check with your local Canon office or authorised Canon Dealer for availability

■ Scan-Once-Print-Many

Fully leverage the inherent digital features of the device by making copies from the images stored in the memory, resulting in reduced scanner wear and tear. The device also supports **Copy Reservation** up to 10 jobs which means documents are scanned and queued while another job is printing.

■ Job Done Notification

The device will send you an email notification once copy or send job is completed, allowing you to attend to other matters.

Scan-Once-Print-Many & Job Done Notification

■ Job Build

Digitally consolidate pages scanned in multiple batches through either the document feeder or the platen glass, offering versatile document building capabilities.

■ Greatly Reduced Operation

A large clear colour touch LCD panel serves as a data access terminal to call up a full range of operations, featuring user-friendly menu trees for easy selection.

- An option to switch to **Express Copy** screen allows you to program jobs in fewer steps, reducing the setup time for smoother operation.

Simple

Express

Versatile Copying Capabilities

Easy-to-use copy functions for varying business needs.

COPY / MAIL BOX

■ Engages Remote Copying for Faster Distribution of Documents

Save up on your document delivery cost and time. With remote copying, scanned documents are sent directly from one multi-functional printer to another via the network for printing. It can be in different rooms, floors or buildings.

■ Cascade Copying Splits a Large Copy Job between Multi-functional Printers

Rushing with a large copy job? With Cascade Copying, the job can be split between two multi-functional printers via network, completing the whole job at a faster time frame.

■ Manage Data Efficiently with Mail Boxes

Mail Boxes provide document storage solutions at no additional cost. It also serves as a communication hub for various teams to merge their contribution effortlessly and most importantly, documents stored are immune from image degradation that is usually associated with paper originals.

■ Combine Efficiency and Security

Routing documents electronically speeds up administrative processes and avoids endless printouts. Use the Mailbox feature to store documents securely before printing, protecting all your important company information.

■ Secure Watermark

Specified Security text strings (including device serial number) and background images are embedded repeatedly onto the document as an image when any attempt is made to print, copy, scan or fax the protected document. Hence prevents unauthorized copying.

■ Communication Hub

Empower your workgroup in a whole new way by deploying information to multiple destinations in a single operation is simple.

Just scan in originals and transmit them electronically wherever you want to (eg; email addresses, databases, company servers or faxes) and in any format you choose (eg: PDF, TIFF, MTIFF or JPEG). This eliminates the cost of distributing hard copy documents - saving time, money and space.

■ Sending with Speed and Accuracy

Having problems remembering fax numbers and email addresses? Use the **LDAP** feature to access email addresses directly from the company server through the multifunctional printer.

■ Searchable PDF for Reduce Search Time

Simply process documents through powerful PDF creation engine and perform full-text search or transfer to a word processing application for data manipulation with ease.

■ Secure Digital Documents

Prevent impersonation, unauthorized alteration or interception of your documents with **PDF Security Feature**.

With **Digital Device Signature** mode, recipients can be assured of the originating device of documents, allowing the recipients to verify the source of the sent documents.

Protect the contents of your documents with **Encrypted PDF feature** by simply securing them with a password to restrict access, editing and printing. Unauthorized people are not allowed to retrieve the documents if password is not entered correctly.

The **Digital User Signature** option enables verification of your identity to recipients by adding your digital certificate to your documents.

Superior Communication

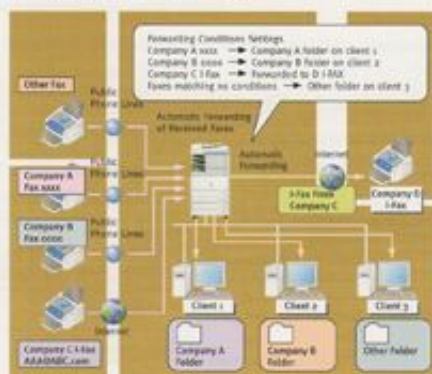

Puts the power of full communications in your hands with Efficiency,
Reliability & Simplicity with **Universal Send**.

UNIVERSAL SEND

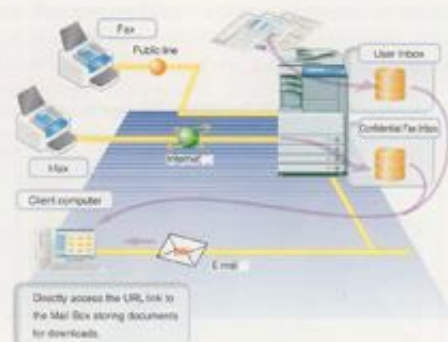

■ Job Forwarding

With Job Forwarding, you're never out of reach of important information and providing a solution to document of large file size

- Incoming faxes can automatically route to other devices, destinations or destinations or database for remote reception or archiving purposes.

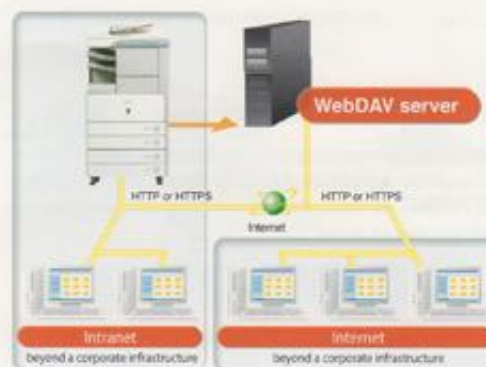

- URL Sending automatically routes incoming documents as a URL via email to other destinations.

■ Web-Based Document Collaboration

Universal Send supports the Web-based Distributed Authoring and Versioning (WebDAV) protocol, enabling you to send documents securely to a shared storage service. You can easily access to stored documents even from a mobile environment or outside of intranet.

FAX

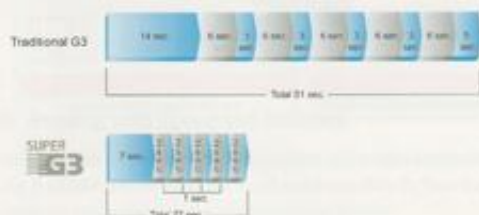

High Volume Fax Capability

Multi-talented Performer supports option of a single or multi-line G3 fax module, further extending the capabilities of Universal Send.

■ Canon's Super G3 Fax Technology

Offers a faster transaction speed of 33.6kbps than the conventional G3 (14.4kbps) dramatically reduces the transaction and telephone line charges while increasing your work productivity and efficiency with less amount of time spend on faxing.

■ Memory Receive (RX) Inbox and Confidential Fax Inbox

Additional Mail Box features include the ability to store received fax or internet fax documents in a Memory RX Inbox or a Confidential Fax Inbox. From this location, the document can be previewed before printing or deleting it. Thus cutting down unnecessary paper wastage.

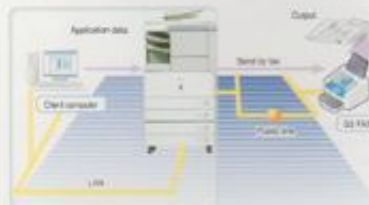

■ Multi-Line Fax Capability

Doubling your fax capacity with minimal investment when you install the Multi-Line Fax Board on your imageRUNNER. You may designate one line for outgoing fax calls and dedicate the second line for incoming faxes.

■ PC Faxes

Go paperless faxing from PC fax without the need to print on paper, cutting costs by efficiently reducing paper usage.

SECURITY

Security and Authentication

Canon offers a full-range of business security solutions to protect your business from any possible information leakages.

■ Password & Authentication

To maintain control over IT environments, administrators can restrict printing, copying, faxing, or e-mailing documents to authenticate you. These restrictions aid in maintaining a tight information security environment.

- The three authentication levels are as follows: Department ID Mode, SDL (Simple Device Log-In), and SSO (Single Sign-On).
- SDL and SSO are more secure as they work with network-based authentication servers to grant access.

■ Restriction of access to device functions

Access Management System allows administrator to manage control access by login authentication but also to specific device functions each user can perform, such as forced duplexing, forced image combination (2-on-1, 4-on-1, etc), etc.

■ Hard Disk Overwrite Security Delivers Added Protection

Completely erase traces of previously stored data in the hard disk in a single step with the optional HDD Erase Kit permanently. This prevents information leakage from the hard disk.

■ Prevent Data Leakages & Safe-guard your Documents

With HDD Data Encryption Kit, data that are stored in the machine is encrypted, you are assured that your documents are well-secured and protected in the hard disk.

MANAGEMENT

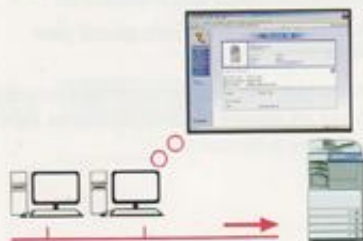

Accessibility

Optimizes Accessibilities & Increase User Experiences through High Technology Platform.

■ Make Complex Tasks Easy

You don't need technical expertise to get the best out of the imageeRUNNER 3025/3035/3045 series.

- The intuitive User Interface and printer driver reduce sophisticated functions to simple steps on the large touch panel display screen.
- The Remote User Interface, with its built-in web browser gives you complete control of machine status and settings from their connected desktops.

■ Manage Multiple Machines Together with Device Information Delivery

Setting up one of the devices as the host machine to deliver the same information to the other devices connected over the network. This allows centralized management of multiple devices, thus saving the time & effort of registering information for all.

■ Improves Disability Support

- Remote Operator

Provide the capability to operate the device from any networked computer or laptop by emulating the device's control panel. This allows users in wheelchairs to program the system in a seated position.

- Voice Guidance

This option provides visual impaired users audible job confirmation through voice synthesis technology during the copy process.

-Voice Operation

This new advanced optional new feature provides visual impaired users the ability to operate the copy functions of the multi-functional printer with ease by simply using voice command.

*imageWARE Office Suites**

Improve your personal workspace with Canon's imageWARE Office Suites* to Capture, Manage, Distribute & Publish your data.

COST AND DOCUMENT MANAGEMENT*

■ Capture Important Information

Canon's *imageWARE Scan Manager* can convert high volumes of documents into digital data quickly and easily. Important details on the documents can be captured. Manual labour costs, which relates to scanning and document indexing can be greatly reduced.

■ Physical Paper Reduction and Storage

Documents, either in paper or electronic form, make up the information base of most companies. Canon's *imageWARE Document Manager* is designed to reduce or replace traditional hard-copy document storage methods in general office environments, supporting applications for retrieval, archival, and records management.

Paper documents can be saved directly into *imageWARE Document Manager* with a single touch of the button on your Canon *imageRUNNER*. In addition, faxes can also be sent and stored into different folders based on the incoming fax number. This can be achieved with the smart solution - *imageWARE Document Manager Client for MEAP*.

■ Document Creation Made Simple

High quality, professional-looking documents will add more influences to important documents. Save time and money, simply use Canon's *imageWARE Publishing Manager* for a fast, affordable in-house colour publishing system. Now you can create professional-quality booklets, catalogues, brochures, and more with sophisticated finishing features in-house right from your desktop.

■ Cost Efficient Monitoring

Imagine how much more efficient your organization would run if you could easily monitor the usage of a multifunction device? *imageWARE Accounting Manager for MEAP* is a simple job accounting application which keeps detailed records of all printing, copying, scanning and faxing handled by Canon MEAP enabled *imageRUNNER*. In addition, the application can break down information based on user names, giving you a precise indication of each employee's machine usage.

*All imageWARE applications are sold separately.

PAPER HANDLING & ACCESSORIES

■ Advanced Document Handling and Finishing Support.

Canon technology helps you work smarter, offering considerable flexibility to meet & exceed your toughest demands.

■ High Paper Capacity

The imageRUNNER 3025/3035/3045 series offers a standard 2 front-loading cassettes that holds 550 sheets each, you can further enhance the capacity to a sizeable 4,750 sheets with support of large paper sizes, heavy paperweights and a wide variety of specialty stocks.

■ Stable and High Speed Paper Feed

APFM (Accelerated Paper Feeding Mechanism) enables feeding of paper to be performed at appropriate optimal speed at each location thus minimizing occurrence of paper feed jams and ease of maintenance.

■ Brilliant Finishing

Choose from saddle stitching or booklet making for polished professional documents. Canon's finishing technology gives your workgroup a head start over the competition for presentation.

■ Uninterrupted Operation in High Volume

Auto paper selection and auto drawers switching increase the productivity of the device by automatically selecting the size of the paper and enabling the imageRUNNER 3025/3035/3045 series to continue copying or printing even after the primary paper source has been depleted.

■ Space-Saving Body Design for Corner Installation

Limited space for multiple standalone devices? With this compact imageRUNNER and its internal finishing options design allow you to utilize the limited space in your office, providing you the high-value office capabilities.

SPECIFICATIONS imageRUNNER 3025/3035/3045

Main Unit

Type:	Digital Multifunctional Imaging System
Imaging System:	Laser Dry Electrostatic Transfer System
Developing System:	Dry Dual Component Developing System
Fusing System:	RAPID Fusing System
Image Server Memory:	Standard 512 MB RAM
Hard Disk Drive:	20GB
Network Interface Connection:	10/100Base-TX (RJ-45)
First Copy Time:	Less than 4.9 seconds (R 3025) Less than 3.9 seconds (R 3035/3045)
Max. Copy Reservation:	99
Warm-Up Time:	30 seconds (A4) Approx. 30 seconds (Sleep Mode)
Copy Speed:	35 ppm (A4) (R 3025) 35 ppm (A4) (R 3035) 45 ppm (A4) (R 3045)
Resolution:	1200 dpi (Equivalent) x 600 dpi (Copy) 600 dpi (Equivalent) x 600 dpi (Print)
Halftone:	256 Gradients (Continuous - Tone)
Duplexing:	Standard Automatic Tailless Duplexing
Magnification:	25% to 400% (in 1% increments)
Exposure Control:	Automatic or Manual (9 Levels)
Paper Sources (Original):	Standard
	Optional
Acceptable Paper Weights:	
Cassettes:	64 - 90 gsm
Stack Bypass:	A4 - 128 gsm
Dimensions (W x D x H):	761 mm x 565 mm x 700 mm
Weight:	70 kg (R 3025) 74 kg (R 3035/3045)
Power Supply:	220-240V AC / 5A / 50-60Hz (R 3025) 220-240V AC / 4A / 50-60Hz (R 3035/3045)
Power Consumption:	Less than 1.35 kW
Toner (Estimated Yield):	
Drum Yield:	75,000 sheets (A4) (R 3025) 85,000 sheets (A4) (R 3035/3045)
Toner Yield:	21,000 sheets (A4) (R 3025) 24,000 sheets (A4) (R 3035/3045)
(At 6% Coverage)	

Optional Accessories

Duplexing Automatic Document Feeder-A1	
Acceptable Originals:	A5 to A3
Capacity:	50 sheets (A4/80 gsm)
Paper weights:	62 - 128 gsm
UPR II Printer Kit-S1	
CPU:	Canon Custom Processor - Shared
RAM:	512MB - Shared
Hard Disk:	20MB - Shared
PDL Support:	UPR II
Network OS:	Micromax® (Windows 2000/XP/Server 2003), Macintosh® (OS 10.2.8 & above)
PCL Printer Kit-S1	
Required:	UPR II Printer Kit-S1
Supported PDL:	PCL 5e/5L, PCL6
Network OS:	Microsoft® (Windows 98/ME/2000/XP/Server 2003)
PS Printer Kit-S1	
Required:	PCL Printer Kit-S1
Supported PDL:	PostScript 3 Emulation
Network OS:	Microsoft® (Windows 98/98SE/NT/2000/XP/Server 2003), Macintosh® (OS 10.2.8 & above)
Universal Send Kit-G1	
Sending Methods:	E-mail, i-Fax, Super G3 Fax, File Server (FTP, iPK, SMB, WebDAV), User Inbox
Address Book Capacity:	1,800 (Includes 200 One-Touch Buttons)
File Format:	TIF, PDF, Optional (PDF, OCR), Encrypted PDF, Digital Signature PDF (Device, User)

Universal Send Trial Kit-C1

Free Trial on Universal Send (Limit up to 100 scan jobs)

Super G3 Fax Board-Q1/ Super G3 Multi-Line Fax Board-D1

Applicable Line:	Public Switched Telephone Network (PSTN)
Connection Lines:	One Line (Super G3 Fax Board-Q1) Two Lines (Super G3 Multi-Line Fax Board-D1)

Cassette Feeding Unit-Y1

Paper Sizes:	A3, A4, A4R, A5R, B5, B5R
Paper Drawers Capacity:	Dual Front Loading Cassettes (150 Sheets each)

Paper Deck-Q2

Paper Size:	A4
Paper Deck Capacity:	2,500 Sheets (80 gsm)

Inner 2-Way Tray-D1

Number of Trays:	2 Trays
Tray Capacity:	
Lower Output Tray	250 Sheets (A4, B5) 300 Sheets (Other sizes)
Upper Output Tray	300 Sheets (A4, B5) 50 Sheets (Other sizes)
Acceptable Paper Sizes:	A5 to A3
Attachable Accessories:	Copy Tray-I1

Finisher-S1

Number of Trays:	1 Tray (Optional 2nd Tray - Additional Finisher Tray-B1)
Tray Capacity:	
Non-collate, Collate	
Group Mode	1,000 Sheets (A4, B5, A5R)
Staple Mode	1,000 Sheets

Capacity per Tray

(When Additional Finisher Tray-B1 is installed)

Non-collate, Collate	
Group Mode	300 Sheets (A4, B5, A5R)
Staple Mode	300 Sheets

Stapling Position

Max. Stapling Capacity:	Corner Stapling 50 Sheets (A4)
Attachable Accessories:	Puncher Unit-L1 Additional Finisher Tray-B1 Copy Tray-I1

Finisher-A1/Saddle Finisher-A1Z

Number of trays:	2 Trays
Tray Capacity:	
Non-collate, Collate	
Group Mode	1,000 Sheets (A4, B5, A5R)
Staple Mode	1,000 Sheets
Max. Stapling Capacity	50 Sheets (A4, A5 gsm)
Corner, Double Stapling:	

Saddle-stitching (Available on Saddle Finisher-A1Z)

Acceptable Paper Sizes:	A5 to A1
Capacity Tray:	
Non-collate, Collate	
Group Mode	1,000 sheets (A4, B5, A5R)
Staple Mode:	1,000 sheets
Saddle Stitch Capacity:	15 Sheets
Folding:	V-Fold

Attached Accessories

Puncher Unit-L1	
Paper Size:	A3, B4, A4, A4R, B5, B5R
Punch Type:	2 Holes
Puncher Waste Tray Capacity:	Approx. after 11,000 sheets

Additional Optional Accessories

Encrypted Secure Print Software-C1	USB Application Interface Board-G1
Barcode Printing Kit-A1	Expansion Bus-B1
Web Access Software-F1	Voice Guidance Kit-B1
Universal Send Searchable PDF Kit-A1	Voice Operation Kit-A1
Universal Send PDF Security Feature Set-A1	Remote Operator Software Kit-A2
Digital User Signature PDF Kit-A1	Cassette Heater Unit-09
Secure Watermark-A1	Cassette Heater Attachment-D1
HDD Erase Kit-A1	Access Management Kit-A1
HDD Data Encryption Kit-B1	Platen Cover Type-H
Buffer Pass Unit-E1	3 Way Unit-A2
